RE: Field Visit of DOE/001/007, Beaver County, Utah

Dave Wham and I visited the general area of DOE/001/007 (Sections 18 & 19, T27S, R12W) on September 10, 1986. The site can be reached by traveling approximately 13 1/2 miles west of Milford on Hwy 21. The Doe area straddles the highway and is heavily staked by John C. Welsh of WXW Partners. It appears that he has overstaked Alice Van Horn's claims that are listed in DOE/001/007. There was no evidence of any post 1977 mining at the site although there are numerous dirt roads that have been built to satisfy claim assessment work requirements.
